Availability Fee: _____ **Total Fee Due:** _____ **Total Paid:** _____
Water – Equivalent Dwelling Unit(s) _____ @ _____
Date Paid: _____ Check # _____ Invoice # _____

Availability Charge is that fee payable for the purpose of having the utility service available to the specific unit and is intended to defray, in part, the capital cost of major water supply, treatment, distribution, and storage facilities. The availability charge does not include connection costs.

Non-residential users, including multi family residential, commercial and industrial users may be assessed additional availability fees if the actual usage exceeds the projected usage on which the availability fee is based. Availability charges will be based on the schedule of rates in effect at the time of reassessment.

The fees set out above are guaranteed subject to the adopted Greene County EDU purchase policy for the Ruckersville Water System. Once the EDU fee has been paid to the County, the purchaser shall present the executed EDU purchase form to RSA, pay the associated fees, and request hookup in accordance with RSA policies and procedures. A "hookup" is defined as an actual physical connection between the property owner's water service and the RSA water meter.
